You are becoming your own person; your personality is emerging more and more.
Despite that, there is a sweet and nurturing side of you - and I always see it, even when you're acting out.
Everything is exciting and new, even things I see every day but never gave much thought.
It was so hard to leave you! But I knew it was best for you (and me, too).
We spend a lot more time drawing and writing these days.
You're my everything.
It seems like your favorite thing in the world is to roughhouse with Daddy.
Your pre-reading skills are great, too! You even have some of your books memorized and you like to read them to us, especially Goodnight Moon.
One time, we heard you say, "Bless you" over the baby monitor while you were in your crib - you were still awake and heard me sneeze in the other room.
You aren't big on snuggling unless you're sick.
